ENERGY

**CASE NO.:** NEPR-MI-2024-0006

**SUBJECT:** Publication of Draft Study on Net  
Metering and Distributed Energy.

**RESOLUTION**

Article 4 of Act 114-2007<sup>1</sup> mandates the Energy Bureau of the Puerto Rico Public Service Regulatory Board ("Energy Bureau") to conduct a study on net metering and distributed energy in which it shall evaluate and consider the costs and benefits associated with: (1) the net metering program, (2) distributed generation technologies, (3) smaller scale solar energy, and (4) energy storage systems. Act No. 10, which was approved on January 10, 2024, amended Arts. 4 and 9 of Act 114-2007.

On the other hand, Act 57-2014<sup>2</sup> empowers the Energy Bureau to conduct periodic studies and research on the generation, transmission and distribution, use and consumption of energy, whether using petroleum and/or its derivatives such as fuel, natural gas, renewable energy sources, waste conversion, as well as any other mechanism or technology that may be used as an energy resource, to determine the energy needs of Puerto Rico during any period of time.<sup>3</sup> In turn, the Energy Bureau has the power to carry out the inspections, investigations and audits it deems necessary to achieve the purposes of Act 57-2014.<sup>4</sup>

Acting within the broad delegated powers and duties, the Energy Bureau publishes the Draft Study on Net Metering and Distributed Energy and includes it as Annex A to this Resolution.
